Qualifications - Soft skills

I am a 19-year-old student studying Software Engineering at PUC-MINAS who has been dedicating myself to software developing, mainly front-end development.

I'm looking for an opportunity in a company where I can develop myself professionally, demonstrate my technical and personal skills and abilities, thus contributing to the company's growth.

I worked at SevenApps for 2 years (2022-2023) where I contributed to the front-end development of apps and websites, I have worked on 5 projects within the company, one of them being the ***Bestbarbers*** mobile and web app.

In 2024, I completed a freelance project for a company called VCLEAN-HIGIENIZAÇÃO, where I created a basic landing page for them using React.JS.

Recently, I worked at a US-based marketing company, Grownexis, where we used AI tools to boost our clients' digital presence, from website creation to social media management.

Skills I master

- React + React Native
- HTML + CSS + JavaScript + Bootstrap
- Python + Database + JSON Server
- Git + GitHub
- Figma
- Canva
- Integration with APIs
- Fluent English
- Intermediate Spanish
- Experience with SCRUM methodology
- Good spoken and written communication
- Video Editing (Wondershare Filmora + Capcut)
- Automation with AI (Make.com + N8N)
- Competitive Market Analysis
- Paid Traffic
- SEO Optimization

COMPLEMENTARY COURSES

- ***React Native (DevRiseWeek)***
- ***React (Sevencoders)***
- ***Scrum - Agile Methodology (Udemy)***
- ***Arduino for Children and Teenagers (PUC - Minas)***
- ***Principles of web programming and HTML (IFSP)***
- ***Design Thinking Intensive (.Yellow)***
- ***Start_Inatel_Engineering (Python)***
- ***Back-end Development with Python (IFMG)***
- ***Creators Formation (Organick)***
